

VIDICUBE (PTY) LTD

E N G I N E E R I N G W O R K S

**LIGHT, MEDIUM &
HEAVY FABRICATION & MACHINING**

With 30 years experience in steel fabrication and having been involved in projects covering a broad spectrum of industrial sectors, we have the flexibility to tailor our fabrications to meet the needs of our clients. Our experience and expertise allows us to work with our clients from the design stages of projects until final dispatch.

With a combination of steel fabrication and machining, rolling, plate grinding and welding together with a working practical knowledge of the industry, this allows us to provide a full comprehensive service with the aim to complete customer satisfaction.

PREMISES

Vidicube's fully established and functional workshop and offices are situated in Delville Industrial Park in Germiston. Equipped with 4 travelling overhead cranes (2 x 3.5 ton, 1 x 10 ton and 1 x 5 ton) as well as machinery and equipment to accommodate a wide variety of fabrication and machining projects

QUALITY

Vidicube's clients are ensured the highest levels of product quality and workmanship including on-time delivery. Our team of qualified boilermakers, coded welders and turners will create and fabricate to each client's specification whatever the challenge.

Quality workmanship is of extreme importance and we are striving towards perfection by implementing ISO9001/2015 standards for our quality management systems.

B-BBEE CONTRIBUTOR LEVEL

We are currently a level 2 contributor
